Please note that we are a non-profit volunteer run organization and that all of us are working together on the behalf of this dog's lifetime of care, and our only concern is to find their forever home with caregivers that can fulfill all of their needs. If your application is approved, the next step is a home visit; this gives us an over-all picture of the dogs' potential new environment. If that is approved and we feel the dog is a good match, we move forward with an approximate 2 week foster period. If all continues to go well we will finalize the adoption at that time.

The information you give us in this form will become part of your adoption agreement if you adopt a dog from us. Our group may reclaim custody of this dog if responsible care is not given. If for any reason you can no longer keep this dog, they dog must be returned to us.

Adoption fee for an adult dog aged 1-8 yrs. \$425, Puppies & dogs under 1 year \$550 and seniors dogs aged 9 years and over \$375 dependent on health & age. Senior dog to senior adopter \$325. This money goes towards the vetting, feeding and training of all the rescued dogs that come into our care.
